

English Tongue (Radio Version)

Palma Violets

You can't judge life if you don't understand
The way that we work we're a close knit plan
And everybody knows just who I am
My name's Hugh Diver I'm the starlit strand There must be someone with an English tongue marking your
words for the miles you lost
It's gonna be a cruel cruel winter The go zone girls in the club don't agree they called me in but there was
nothing to see
All the folk poke their eyes at me
is it just my fame or infamy? Up jumped the devil and the cavalry
Everyone's excited they're watching me
And everybody knows just who I am
My name's Hugh Diver I'm the starlit strand There must be someone with an English tongue
marking your words for the miles you lost
It's gonna be a cruel cruel winter Let him go
Let him go
And everybody knows just who I am
And everybody knows just who I am
And everybody knows just who I am
My name's Hugh Diver I'm the starlit strand
