

Human

Elastica

I was only human
Of flesh and blood
I would relate to you
You know I couldI long to hold you
Just like you do
Ten times, I've thought about it
The things you doAnd so you see them
It's such a shame
It's just the way it goes
There is no painI long to hold you
Do what you would
Do dancing like you want to
You know I could
