Grey Cell Green

Ned's Atomic Dustbin

DesireWhen your desire, it has been found
You'll be runnin' far away
When your desire, it has been found
You'll be runnin' far awayYou're tellin' me it's in the trees, in the trees
It's not, it's inside me now
You're tellin' me it's on the ground, it's all around
But it's not, it's inside meYou're tellin' me it's in disguise, well, use your eyes
It's not, it's inside me now
You're tellin' me it's mother earth, some sign of birth
It's not, it's inside meDesireWhen your desire, it has been found
You'll be runnin' far away
When your desire, it has been found
You'll be runnin' far away, far awayYou're tellin' me it's in the trees, in the trees
It's not, it's inside me now
You're tellin' me it's on the ground, it's all around
But it's not, it's inside meYou're tellin' me it's in disguise, well, use your eyes
It's not, it's inside me now
You're tellin' me it's mother earth, some sign of birth
It's not, it's inside meDesire, it's inside her
It's inside me, desire
DesireYou're tellin' me it's in the trees, in the trees
It's not, it's inside me now
You're tellin' me it's on the ground, it's all around
But it's not, it's inside meYou're tellin' me it's in disguise, well, use your eyes
It's not, it's inside me now
You're tellin' me it's mother earth, some sign of birth
It's not, it's inside me, come onGrey sells green only if the green cell's grey
Grey cell's green only if the green cell's grey
Grey cell's green only if the green cell's grey
Grey cell's green only if the green cell's greyYour desire, it's inside her
It has been found
