

# Centerfold

## Genoa

I'm on the rebound, I get it where I want to  
I'm on the way down, I'm getting fixed without you  
You gave me a band-aid, I put it on my heartbreak  
And all you got is pictures in your hand Don't you wish you could hold  
The angel in the centerfold?  
The fantasy you couldn't control  
Who walked away from you Don't you wish that you could hold  
The pretty little paper doll?  
The one you couldn't quite control  
Who walked away from you Flip to me, I'm the centerfold  
I'm gonna charm you all night  
Stick to me, I'm the centerfold  
We're gonna go, oh, hold tight I'm gonna hate you, 'til I forget you  
So here's a keepsake, I left it in the bathroom  
Just a little something, something to remind you  
The joy you'll never get this close again Don't you wish you could hold  
The angel in the centerfold?  
The fantasy you couldn't control  
Who walked away from you Don't you wish that you could hold  
The pretty little paper doll?  
The one you couldn't quite control  
Who walked away from you Flip to me, I'm the centerfold  
I'm gonna charm you all night  
Stick to me, I'm the centerfold  
We're gonna go, oh, hold tight Flip to me, I'm the centerfold  
I'm gonna charm you all night  
Stick to me, I'm the centerfold  
We're gonna go, oh, hold tight Now, it's him but it could've been you  
Tell me why it's him, when it should've been you?  
It's crazy how this makes you wanna change Here's an image you won't forget  
All your life I'll tease, I'll torment  
I'll be gone as soon as you turn the page Don't you wish you could hold  
The angel in the centerfold?  
The fantasy you couldn't control  
Who walked away from you Don't you wish that you could hold  
The pretty little paper doll?  
The one you couldn't quite control  
Who walked away from you Flip to me, I'm the centerfold  
I'm gonna charm you all night

Stick to me, I'm the centerfold  
We're gonna go, oh, hold tight
