You Don't Know Me

Tracy Bonham

You say you knew Jackie Onassis
When she was an actress
You say you knew Buffalo Bill
Before he could kill
You've got your head twisted round the back
So you can't see
My life colliding with your life
And you say you know meBut you don't know me
You don't know me
And in no way am I a mysteryJust hang a bell around my neck
And call me ol' Bessie
Yeah take that cattle prod back
Before I see red
You've got your head twisted round the back
So you can't see
My horns colliding with your ass
Cause you think you own meBut you don't own me
You don't own me
And in no way am I a mystery
You don't know me
You don't know me
And your thickness is hard to believeYou don't know me
You don't know me
And in no way am I a mystery
You don't know me
You don't know me
And your thickness is hard to believeYou don't know me, you don't know me, you don't know me
