Stay for the Night

Gotthard

Oh, you better be aware
There's nothing you can do
'Cause right from this moment
I can't take my eyes off of youYeah, I really gotta know
I want to make this real
Why should I pay just for something
I know, I can steal
But don't you worryWhy don't you stay for the night
It's the same old story
I'll love you till the morning light
But tomorrow you'll find your way homeAnd here I go again
I'll take it on the run
Dressed up n' ready for action
It won't take too longIf you wanna play the game
You gotta feel no shame
I'm burning with passions desires
Do you feel the same?
You better hurryWhy don't you stay for the night
It's the same old story
I'll love you till the morning light
But tomorrow you'll find your way home
Way home, way homeI can't think of no other but you in my lonely nights
I'm beggin' you honey, don't leave me this way
But don't you worryWhy don't you stay for the night
It's the same old story
I'll love you till the morning light
And you know, I'll make you feel alrightDon't ask yourself what's wrong or right
It's the same old story
Don't let us waist one more night
But tomorrow you'll find your way home
Way home, way home
