# Hello Operator

## Billy Forrest

Hello operator
I'd like to place a call
To my special angel,
the sweetest one of all
I hear the phone a-ringing
Well, I guess that she's not home
Thank you operator
I'll try later on

Hello operator
would you try my call again
She must be at the movie
Or out with her best friend

You still don't get mansion
Operator would you mind
If I repeat the number
Would you dial it one more time?

Hello operator
did you try my call again?
It's getting pretty late now
And I'm sure that she'll be in

I know how much she love me
She's mine and mine alone
Thank you operator
She's picking up the phone

Hello darling
I tried to call all night
You sound kinda funny
Are you sure that you're alright

Oh, there's someone with you
Yes, I'll try to understand
He's holding you
I'm just a phone in my hand

Hello operator

Yes I quess that we're all through
Like the one I loved for me
we're all through, through
