Symbol Of Life

Paradise Lost

All alone beside myself
All alone beside myself
And I've troubles on my mindAnd I've reached the depths of life
And I hear that deaths alright
Still I'll wait for you to tryWhen the dreams have been and gone
And the torment has begun
My emotions runCan't get by with what I've got
Always dwell on what I've lost
Just a loaded gunA symbol of my life, a symbol of my lifeOn the floor I crawl and writhe
As the day turns into night
I remove myself from sightAnd I reached the depths alright
And I hear deaths part of life
Still I wish that you would tryWhen a dream has been and gone
And the torment has begun
The rejections doneI get by with what I've got
Always aware of what I've lost
Just a loaded gunA symbol of my life, a symbol of my lifeNothing more, nothing more to say to me
