

Symbol Of Life

Paradise Lost

All alone beside myself
All alone beside myself
And I've troubles on my mind And I've reached the depths of life
And I hear that deaths alright
Still I'll wait for you to try When the dreams have been and gone
And the torment has begun
My emotions run Can't get by with what I've got
Always dwell on what I've lost
Just a loaded gun A symbol of my life, a symbol of my life On the floor I crawl and writhe
As the day turns into night
I remove myself from sight And I reached the depths alright
And I hear deaths part of life
Still I wish that you would try When a dream has been and gone
And the torment has begun
The rejections done I get by with what I've got
Always aware of what I've lost
Just a loaded gun A symbol of my life, a symbol of my life Nothing more, nothing more to say to me
