Feels So Good

Kelly Price

Feels so good
Feels so good
Feels so good
Feels so good
Yeah, now after all the years of drama
All the time must wondered
I couldn't see, if he love me
Love me, not had me always questioning
A mended heart in my belief, no insecurities
Put the smile back on my lips, the swing back in my hips
(And it feels so good)
Feels so good
Feels so good
Feels so good
Feels so good
(And I never knew that it could be this way)
Hey, I'm gonna finally do it my way
Finally know it's okay
To take care of me, so you can love me
Or love me, now that don't really bother me
'Cause now I'm tradin' in my fears and insecurities
Gonna let myself forgive and free myself to live
(And it feels so good)
Feels so good

Feels so good
Feels so good
Feels so good
(And I never knew that it could be this way)
And I never thought that I could believe that this was real
And I never thought that I'd ever feel the way I feel
No, I never thought that I would outlive the lonely years
Oh, but now I'm smiling, you see the light in me
(And it feels so good)
Feels so good
Feels so good
Feels so good
Feels so good
(I never knew that it could be this way)

Feels so good
Feels so good
Feels so good
Feels so good
So I'll, I'll keep smiling
And keep shining
Oh, baby, it feels so good
(It feels so good)
See I never knew that it could feel this way
