The Magic Friend

2 Unlimited

1, 2, 3, 4Don't just stand there, let's get loose
I am Ray, I've got the juice
Straight to your heart and back again
I tell you I am just your friendNice and slow, that's how we'll go
My love to you I'll let it flow
You want me? Come on think again
Because the magic friend, that's what I am'Course the magic friend is what I am
The magic friend is what he is
'Course the magic friend is what I am
The magic friend is what he isYo yo yo yo, taste that music
Real loose, you've got to use it
Don't be afraid for magic friends
'Cause that magic friend is what I amThe magic friend is what he is
The magic friend is what he is
The magic friend is what he is
'Course the magic friend is what I amDon't just stand there, let's get loose
I am Ray, I've got the juice
Straight to your heart and back again
I tell you I am just your friendNice and slow, that's how we'll go
My love to you I'll let it flow
You want me? Come on think again
Because the magic friend, that's what I am'Course the magic friend is what I am
The magic friend is what he is
The magic friend is what he is
The magic friend is what he is
The magic friend is what he isThe magic friend is what he is
The magic friend is what he is
The magic friend is what he is
Don't be afraid, he's just the magic friend
