

# Late Show

[Hawk Nelson](#)

You get me so simply  
But my heart won't let me I won't forget that night I saw her at the movies  
She has this way about her, she smiles whenever she walks  
I'm tryin' find the nerve to finally introduce me  
She has this glow about her you'd catch it whenever she talks Lets go knocking on my window  
We can watch the late show  
And movies made for cable  
And then we'll talk listenin' to punk rock  
We'll hang out and wait until the sun comes up You get me so simply  
But my heart won't let me I won't forget that night I saw her at the movies  
She has this way about her, she smiles whenever she walks  
I'm tryin' find the nerve to finally introduce me  
She has this glow about her you'd catch it whenever she talks Lets go knocking on my window  
We can watch the late show  
And movies made for cable  
And then we'll talk listenin' to punk rock  
We'll hang out and wait until the sun comes up
