Feels Like the First Time

Corinne Bailey Rae

I could pretend that I was okay
I wind around the parties, drink in hand
I could pretend when you went away
That I had changed and I no longer hear the bandI won't lie
I found a love
I had to rediscover
I was emotionally scarred we could not get it away
There are times when it breaks and I feel amazedFeels just like the first time when you kiss me, my lover
Angels in the sky will descend on our love
And it's hard to deny what is happening
Although we talk, talk, talk on the telephone
We laugh, laugh, laugh at the things we knowI've been a soldier for much too long
I'd willingly surrender all my arms
If you decided you won't be long
I'd wait here patient for you
Look for you every morningHad this love
There were sparks
We tried to push it on but
I was afraid of the dark
We could not get it away
Never mind what they say
I would feel the sameFeels just like the first time when you kiss me, my lover
Angels in the sky will descend on our love
And it's hard to deny what is happening
Although we talk, talk, talk on the telephone
We laugh, laugh, laugh at the things we knowIf I could choose then my heart would be in it
My charms would be in it
My love would be in itI know you heard me on the telephone
I know you knew that I was coming for you
But you still won't give me the answerFeels just like the first time when you kiss me, my lover
Angels in the sky will descend on our love
And it's hard to deny what is happening
Although we talk, talk, talk on the telephone
We laugh, laugh, laugh at the things we know
