Take This To Heart

Great Faith In Fools

Cause I'm a mess and you know that I can't help it
The drive home never seemed this long before
Killing time just a little bit faster
And I swear we'll make it
But I can't tell you what I don't know
(Be mine tonight, be mine tonight)
The simple things, they make my heart go
(Be mine tonight, be mine tonight)
But I can't tell you what I don't know
You'll have to wait
You'll have to wait
Stay safe stay strong
And let me know that youll be here while i am gone
Because I'm coming home
Coming home tonight
Let's get this right
I said I'm coming home
Coming home tonight
You sounded hurt and you know that I believe you
Searching every little thing to find a way
To tell your heart just to wait a little longer
I swear we'll make it
But I can't tell you what I don't know
(Be mine tonight, be mine tonight)
The simple things, they make my heart go

(Be mine tonight, be mine tonight)
But I can't tell you what I don't know
You'll have to wait
You'll have to wait
Stay safe stay strong
And let me know that youll be here while i am gone
Because I'm coming home
Coming home tonight
Let's get this right
I said I'm coming home
Coming home tonight
One more night
And we'll go spinning around the room

and dance with our hearts on fire
Cause every song is ours tonight
And if you love me so
im gonna tell the whole world
That it's greatest thing that happened to me
I finally found a good reason to come home
Stay safe stay strong
And let me know that youll be here while i am gone
Because I'm coming home
Coming home tonight
Let's get this right
I said I'm coming home
Coming home tonight
