

# My Homie (feat. Miss Lady Pinks)

## Mr. Capone-E

You need me we true homies boy  
I need you You need me we true homies girl  
I need you (Chorus)  
You my homie cause I know on you I can depend  
My true homie and I got you're back to the very end, yeaah  
I got love for you  
And I got love for you  
So when it goes down hold me down, homie (Verse 1)  
I need you and thats really the talk  
Your the princess, when I take that walk  
Come on girl, I need that type of respect  
Every time I get locked up  
You except my collects  
And I adore for the days when we're at the spot  
Stranded at the boulevard slaggin` them rocks  
You had my back, like an angel on my shoulder  
I look to the right  
and there goes my home girl, yeaah  
And I'm proud to say  
Theres no other girl that I ever would praise, you know that  
And I need that company, friendship, respect  
I need you homie (Chorus)  
You my homie cause I know on you I can depend  
My true homie and I got you're back to the very end, yeaah  
I got love for you  
And I got love for you  
So when it goes down hold me down, homie (Verse 2)  
You're that special kind that I need by my side  
A real gangster that's ready to ride  
I'm tired of little boys that not my estilo  
I'm looking for protection and affection, mijo  
So please keep it true and I'll be true to you  
Please watch my back cause I'll watch yours, too  
Decisions we make in this world we live  
We ain't lovers, but we're closer than friends  
And all these times  
I would like to thank you  
Or did I mention,  
I really need you, I really feel you, like a brother to me

Someone to look up to when I'm really in need(Chorus)  
You my homie cause I know on you I can depend  
My true homie and I got you're back to the very end, yeaah  
I got love for you  
And I got love for you  
So when it goes down hold me down, homieSo let's ride, till the wheels fall off  
Let's make it last whatever the cost  
I'm right in you're corner and I'll hold you're weapons  
So when the police comes  
They won't find nothing  
I'll protect you, each and every way  
You tell me not to do it but I'll  
do it anyways  
I'm your richous confedant  
I'll always have your back from dust to dawn(Verse33)  
Thank you lady, but I will put you in danger  
That's a real man for a true gang banger  
Strangers,  
Intend to come and go  
But as time went by, your loyalty show  
No matter where I go  
You may be the cause or when it comes down to me  
You put everything in pause  
I bang all month like bonnie and clyde  
I need you by my side  
I need you homie, that's right(Chorus)  
You my homie cause I know on you I can depend  
My true homie and I got you're back to the very end, yeaah  
I got love for you  
And I got love for you  
So when it goes down hold me down, homieyou need me we true homies boy  
i need uyou need me we true homies girl
