

I Take Drugs

Murderdolls

I take drugs, I take drugs
I take drugs and you should too
I take drugs, I take drugs
I take drugs and you should too
Every day in every way
I'm looking for a fix to make me feel okay
I need something to give me hope
Like an automatic weapon or an eight ball of coke
I take drugs, I take drugs
I take drugs and you should too
I take drugs, I take drugs
I take drugs and you should too
I'm stressin' out, I need it now
I need some fucking pills to bring me down
What's the crime if I snort a line
Toke, choke, shoot it up all at the same time
I take drugs, I take drugs
I take drugs and you should too
I take drugs, I take drugs
I take drugs and you should too
I need the drugs and they need me
Drug use is the only use for me
Just say no but I'm always sayin' yes
To the D R U G S
I take drugs, I take drugs
I take drugs and you should too
I take drugs, I take drugs
I take drugs and you should too
