Belial's Bride

This is realm of seduction. I'm succumbed by the disease of temptation.
Join the fellowship circle of iniquity: conforming to oppression of demonic unity.
Embracing death by association, snare is set for my own destruction.
The path of the wicked becomes the vice. Union with this world leaves one demonized.

Everyone will share in this plague. Sin engulfs the mind in the world of the dead.
We are embodied by the entities that pollute our soul.
Humanity enslaved in the valley of darkness.
Sharing the disease of demonic possession....
Transferring the disease of demonic possession.

The ways of the wicked will entice. The world will consent to Belial's lie.
Enthroned at the table of fornicators. In the footsteps of the malicious.

Our shades of gray are truly black. We leave ourselves open for demonic attack.
The fellowship of darkness: the sweet demise. Penetrating dimensions: purity demoralized.

The world becomes one in the language of sin. We share in the art of demon possession. The sight of holiness has become blind. Neglecting the awareness of the satanic lie.

The hordes of Satan, the wicked dead: Raping the mindset of all integrity.
The spiritually elect desensitized their rights. Follow the drunken path of the compromised!
