Now or Never

Roze

HOOK (0:15)
I just want the
Power, money & fame
You can have everything
I just want the gold chains
Swerving off in the range
A different country every plane
Call it foreign exchange
I'm on the runx3
I have to get it done
Now or never

0:34
I gotta do what I've never did
If I want to get where Ive never been
Don't you ever say I switched
When I tried to bring you on with the kid
Ain't no riding free waves
"Never That"
everybody round me working
True soldiers who deserve it
How ever many Ms, man they earned it
"Respect"
I'm really tired of playing with it
It's about time I go and get it
No free features, fuck all the buddy buddy
Dawg it's only business, get out your feelings
I been at it too long not to see a profit
When on a roll, gone be hard to stop me
Red roses, you know who the squad be
I've never been this focused
(NO)
Binocular with the scoping
(UGH)
Lemonade on the rocks
For anybody who deemed me hopeless
Ain't no what ifs, I'm going for it
Big up to everyone who don't believe in me
Challenge accepted, this is your lesson

Never neglect, I want

1:23
power, money & fame
You can have everything
I just want the gold chains
Swerving off in the range
A different country every plane
Call it foreign exchange
I'm on the runx3
I have to get it done
Now or never

1::40

I want a bad bitch
Born, bread savage
Keep a silk Bundle by the package
(Bossed Up)
Ratchet, classy, intelligent, nasty
& diss any nigga who bash me
When I'm not around, hold me down
&& let me know what the word round town is
Fill me in on news, GPS clues
She know I ain't afraid to address it
"Let Em Know"
Put some respect on me when you talk to me
(That's right)
Forever humble, but coming for everything promised to me
It's way over due
Like I'm 12 months in the womb
Star potential, when I entered the room
It's levels to galaxies, I'm on the moon
(Laser Beam insert after MOON)
I shine brighter than a nuclear strike
Yea yea
(Nuclear fired of with explosion)
It never works trying to play nice
Game built on, who gone Leonide it
I Keep it 300, you air strike me

But I always see it coming
I don't do surprises, only bank deposits
(Tighten Up or Remove Bank Deposit Highlight)
Took too many losses, for mistakes to cost me

Now it's a whole different ball game
Derek Jeter rookie year, final bat 9th inning
im bringing the trophy back to the crib
I been M.I.A for way too long
I finally found where I belong
Right at the top when I'm meant to be
DXA for life that's who the squad be
We want

2:46
power, money & fame
You can have everything
I just want the gold chains
Swerving off in the range
A different country every plane
Call it foreign exchange
I'm on the runx3
I have to get it done
Now or never
