

# Get Away

**Brian Mcfadden**

What happened to the great escape  
We've ended up on the merry go round  
Now all we have are shadows on the wall we could've had it all  
When did life get in the way Striking matches in the rain  
Now their's only me and you living on this deadend avenue  
Why don't we get away out of this town  
Shake all those yesterdays their dragging us down  
Their's nothing left around here for you and I  
All those signs tell me to get away  
We should just get away  
What happened to the love we made  
We used to give it all

When did life get in the way throwing water on the flame  
Now's their's only me and you living on this deadend avenue  
So why don't we get away out of this town shake all those yesterdays  
Their dragging us down their's nothing left around here for you and I  
All the signs tell me to get away  
We should just get away why don't we get away  
Out of this town shake all those yesterdays  
Their dragging us down their's nothing left around here for you and I  
So why don't we get away out of this town  
Their's nothing left around here for you and I  
All the signs tell me to get away  
We should just get away
