

Flame on My Head

Blaudzun

I wanna go down to the sea again
I wanna go talk
I wanna go don't know when
I wanna go even if I'm snowed up whole
I wanna go
I wanna go seek your hiding place
I wanna go far
I wanna go down flat face
I wanna grow old and hold your body, next to me
I wanna grow up I wanna grow hair I wanna go now
I wanna go mad and shout it out
I wanna go peace will hold no war will bring me down

Carry the weight by the ghosts in your bag
Does it look I got a flame on my head

I wanna grow wings
I wanna go chasing you
I wanna go tell me not to do
I wanna go take your doubts
I wanna go loud sweet soundmachine
I wanna go down
I wanna go south
I wanna go home
I wanna go hear the north wind blow
I wanna go peace will hold no war will bring me down

Carry the weight by the ghosts in your bag
Does it look I got a flame on my head

You'll be the laughter and I'll be the joke
It doesn't matter how far we will go
Don't waste our house on the tambourine ghost

I wanna go I wanna go
I wanna go I wanna go
I wanna go I wanna go
