

# California Soul

## Jonah Jones 1969

Like a sound you hear  
That lingers in your ear  
But you can't forget  
From sundown to sunsetIt's all in the air  
You hear it everywhere  
No matter what you do  
It's gonna get a hold on youCalifornia soul, California soul  
They say the sun comes up every morning  
And if you listen carefully  
The winds that ride on the high time  
Whistle a melodyAnd so the people started to sing  
And that's how the surf gave birth untold  
California soul, California soulWhen you hear the beat  
You wanna pat your feet  
And you've got to move  
'Cause it's really such a groovePuts a brand new time of thinking in your mind  
And you can't go wrong  
'Cause you're happy all day long  
California soul, California soulThey had the melody and the beat  
But it still didn't seem complete  
Until they saw two lovers kissin'  
They knew just what was missin'So happy they were rockin' and reelin'  
Because they added that lovin' feeling  
To California soul, California soul  
California soulCalifornia  
California  
California
