

Spaceman

Tall Tall Trees

Spaceman, spaceman come get me
I'm not from this world you see
Everything's a mystery
Take me to my galaxy
They all laugh at how I talk
Point and stare wherever I walk
Can it be I don't belong
Spaceman, spaceman hear my song Oh oh
When I look up to the stars
I wonder where my parents are
Can it be I'm all alone
Spaceman, spaceman hear my song If I never find my kind
Surely I will lose my mind
But if I can find just one
She will bare my only son Oh oh
Spaceman, spaceman come get me
(Spaceman, spaceman come get me)
I'm not from this world you see
(I'm not from this world you see)
Pick me up so I can leave
(Pick me up so I can leave)
There's got to be a place for me
(There's got to be a place for me)
