

Leather and Wood

Deerhunter

I believe my head is on straight
I've been given this chance
To make things great
I believe I can focus
Reel in the air
I know i can
I canI believe the sun will rise
In the east now
I believe we will find
That elusive peace now
I can't believe there is
No hopeI drove my car over the edge
The leather and the wood
Formed a ledgeI believe we can fly
I believe anything is real
I believe we can die
I believe we can live again
