

2 Doors

Shift K3Y

2 Doors - Shift K3Y

Two doors down what's up the sad day she left
Big white house and corridors boasted bed
The curiosity from us far from fetching
Desire for what may be
Not as plain sight
Would I ever feel this way for you
When I thought I got this swimming pool
No I have nothing to lose
Throw away my thought of you
Now nothing is the same
In my everything 1000 frames
There will be so much more to me
Blame it on my heart yeah
I just know it's bound to change
I don't wanna play this game
Blame it on my heart yeah
I just know it's bound to change
I don't wanna play this game
2 doors out in ting ting ya to recline
I light to walk around the house
Do on my mind
Never once think about all that I'm missing
Flow the bottle on me till I hit the ceiling
Would I ever feel this way for you
When I thought I got this swimming pool
No I have nothing to lose
Throw away my thought of you
Now nothing is the same
In my everything 1000 frames
There will be so much more to me
Blame it on my heart yeah
I just know it's bound to change
I don't wanna play this game
Blame it on my heart yeah
I just know it's bound to change
I don't wanna play this game
Blame it on my heart yeah
I just know it's bound to change

I don't wanna play this game
Blame it on my heart yeah
I just know it's bound to change
I don't wanna play this game
Wanna play this game
I want you baby
Blame it on my heart yeah
I just know it's bound to change
I don't wanna play this game
Blame it on my heart yeah
I just know it's bound to change
I don't wanna play this game
Blame it on my heart yeah
I just know it's bound to change
I don't wanna play this game
