

Sally

Gogol Bordello

Sally was a fifteen year old girl from Nebraska

Gypsies were passing through her little town

They dropped something on the road , she picked it up...

And cultural revolution right away begun!

Oh no! cultural revolution just begun!

Oh no! cultural revolution just begun!

They always were afraid that I was schizophrenic...

They always were afraid schto ja rodinu prodam

a po pravde ja bil prosto malenkij medvedik

spizdil vsjo u vseh i vsjo nahuj proebal...

Oh no! cultural revolution just begun!

Oh no! cultural revolution just begun!

From all the tables of contents that Mother Earth provides

I'd like to be a big fat fucking fly

The one that spins around your head all day and all night

and sound of it is just like a what?...

...but by the accident of some kind divine dispensation

I ended up being walking United Nation

And I survive even fucking radiation

A big fat fucking what?

And I would visit you a lot
