

# Solemn Promise

## Full Blown Chaos

Think you are alone  
You have never been more wrong  
This affliction  
Kills a piece of us all  
Drowning inside out  
Swallow fatal frame  
Don't hold your breath  
I swear, you will breathe again  
This is a promise  
All I have in my heart  
Strength for both of us  
Pull you from the shadows  
This blight won't take your life  
Scour the rust from your veins  
I feel your pain  
Shedding mortal remains  
Put your mind at ease  
You aren't on your own  
With you all the way  
Fight this together  
This is a promise  
To a fallen friend  
If you are lost  
I swear, we will meet again  
Think you are alone  
You've never been more wrong  
This affliction  
Kills a piece of us all  
Drowning inside out  
Swallow fatal frame  
Don't hold your breath  
I swear, you will breathe again  
This is a promise  
This is a promise  
All I have in my heart  
Strength for both of us  
Pull you from the shadows.
