Bring Me the Horizon

Why the fuck can I not hail a taxi?
arm out like a Nazi - every cunt's driving past
where the fuck is everyone?
I can't see anyone. I can't see anything! the hardest part of today is a hangover
empty bottles and empty promises
I got every person I need
and it's gonna be one hell of a messy night!
I can't remember last night. I can't remember anything! "Party til you pass out, drink til' you're dead.
Dance all night til you can't feel your legs" We are done with giving a fuck
