Unstoppable

Bombshell Rocks

Friday morning a day like any other
I'm heading down the same old roads
I've got mommy's little monster in the headphones
It keeps me warm, I stay out of the coldI'm catching speed
I'm never gonna stop againHave you ever had the feeling
No one can bring you down?
Well, today I feel unstoppable
Accompanied by that explosive soundStrike a chord, it's like an arrow through my heart
Well, I was caught as the first note got hit
Come down the air is electrified
See how we get our kicksI'm catching speed
I'm never gonna stop againHave you ever had the feeling
No one can bring you down?
Well, today I feel unstoppable
Accompanied by that explosive soundFriday morning a day like any other
I'm heading down the same old roads
I've got mommy's little monster in the headphones
It keeps me warm, I stay out of the coldI'm catching speed
I'm never gonna stop againHave you ever had the feeling
No one can bring you down?
Well, today I feel unstoppable
Accompanied by that explosive soundI've got the feeling
No one can bring me down
You see today I feel unstoppable
I'm heading down the same old roads of my hometown
