

One Step Away

Frickin' A

I'm down and losing faith
I can't catch a break
Yeah, that's where I am
And everyday is longer it seems
And I'm losing my dreams
Along the way
The world can be so mean to me
All I want so much more
Like a place on the dance floor
I'm only one step away
And I'm falling apart
As I walk through the dark
But I'll start over today
I'm only one step away
I know I'm not blind
But I can't see a future
Unless I change my mind
Unless I decide
That all this comes right down to me
All I want so much more
Like a place on the dance floor
I'm only one step away
And I'm falling apart
As I walk through the dark
But I'll start over today
I'm one step away, one step away
But tomorrow's new day
And I'm fighting my way back again
As soon as I let me
I'll prove this is all in my head
'Cause I want so much more
Like a place on the dance floor
I'm only one step away
And I'm falling apart
As I walk through the dark
But I'll start over today
I'm one step away
A scared step away
