

# In My Dreams (Hell Comes to Your House Remix)

## Darkness

Dreams

Sometimes reality, sometimes illusions

They can come to you straight from the darkness

The evil is trying to get your soul. Dreams. Dreams In my dreams

In my fantasy

I can see

All the things that will be

Rescue me

From my fantasy

In my dreams, in my dreams, in my dreams Dreams come in my mind like a hurricane

Nine minutes from thirty in the boogyman

I wake up in the middle of the night

My body sweats, I twist from side to side

I can't stand, I can't stand the feeling

Praying to God and I hope that I'm dreaming

My hands are bleeding, heads are bleeding

Lookin' to my mom and she starts screaming

What's going on, I can't stand the feeling

Turn my heads and I see my face in the ceiling

Each and every night, different faces

I'm the man in my dream in different places

Yes I'm lost and scared of the illusion

My mind is full, full of confusion

My body hurts, I twist from side to side

I wake up in the middle of the night Dreams. They went into my soul

They give you pleasure till you I lose control

I can't sleep 'cause I got fear fear

I got fear of the things that I hear

Who's gonna be the one who helps from myself

I need somebody, I need help

My body's flyins, body's flyin

Just be a friend and I and I

Rescue me, rescue me. Oh come on rescue me

I'm on a road, on a road to nowhere

I'm on a roll, alone, where's my teddy bear

I can see you tonight 'cause I got fear

Somebody's screamin' loud and clear

I get shot and twist from side to side

I wake up in the middle of the night
