

Wishing Well

Big Head Todd And The Monsters

Missy may you listen to your heart
Missy may your drifting take you far
It's the same with everyone
Cut off chasing the western sun I took a chance to make it better
Ended up drowning in a wishing well
I ain't likely to see you again
But God knows I still think about you now She wasn't able to save the story
So we ended up in a melted glory
Pushing off for the promised land
Ended up stranded on the dessert sand
Hey, think on you
Well, the hell about it is the someone in your room She wasn't able to save the story
So we ended up in a melted glory
Pushing off for the promised land
Ended up stranded on the dessert sand
Hey, think on you
Well, the hell about it is the someone in your room
