

Syncopated

Haji's Kitchen

fake the part again
i'm the saint who spilled the blood again
touch my soul
i'ts too late to do die again
on my way to save the child again
oh, my lord

wanna' feel me?
let me plant my words
wanna' fell me into all that has gone wrong?(x2)

carry this grudge i've held so long
can't breath through this mask very well

play the part again
i'm the one who said you'd live again
touch my soul
it's too late to die again
on my way,
i came to die, my friend
now i'm lord

wanna' feel me?
let me plant my words
wanna' fell me into all that has gone wrong?(x2)

carry this grudge i've held so long
can't breath through this mask very well
hardly have time to count my thoughts
run free through fields of violent red(x2)

i've been through nothing better
i've been through this my friend
i've been through nothing better
i'll never breath again
