

The Light Pours Out Of Me

Magazine

Time flies
And time crawls
Like an insect
Up and down the walls The light pours out of me
The light pours out of me La conspiration
Du silence devrait
Provoquer
Ma pens e The light pours out of me
The light pours out of me La lumi re crue
Se charge vers moi
Me laissant vide
Epat e The light pours out of me
The light pours out of me It jerks out of me
Like blood
In this still life
Heart beats up love The light pours out of me
The light pours out of me
