

I've Got a Winner in You

[Don Williams](#)

I oughta know, what it's like to lose at love
I've done it enough and I oughta know
But then you came my way and tore away the fear of pain
I won't lose again, this time I know I've got a winner in you
No way I can lose
A love I can hold on to
I've got a winner in you I know how it feels when you try and try again
And then you never win, I know how it feels
Oh, but this time around, I've finally found what it's all about
They write songs about the way that I feel I've got a winner in you
No way I can lose
A love I can hold on to
I've got a winner in you I've got a winner in you
No way I can lose
A love I can hold on to
I've got a winner in you
