

# Nothing For Me Here

## Dope

How many times should I stop and believe in myself  
I don't believe much in anything  
I've seen enough of the pain and the shame and the blame  
It don't amount up to anything  
Now I rewind back to a time  
Where I would do anything and pay any price  
And I need time 'cause I'm starting to think  
That the promises ain't worth the sacrifice  
And there's nothing for me here  
There's nothing for me here  
How many nights should I walk in my sleep  
And I dream of how much I wanna run away  
I've had enough of the stress and the mess  
I can't take anymore, I gotta get away  
Now I know why I'm empty inside  
And I'm sure I've only got myself to blame  
And I don't try to view the lies  
It's just a waste of time, I'll never be the same  
There's nothing for me here  
There's nothing for me here  
There's nothing for me here  
I gave you my life and it's fading away  
There's nothing for me here  
I gave you my life just to fade away  
And I can't go on and I can't explain  
What everyone's going on, life's falling away  
And I can't rewind and there's no escape  
It's been so long and I just don't feel the same  
There's nothing for me here  
There's nothing for me here  
There's nothing for me here  
I gave you my life and it's fading away  
There's nothing for me here  
I gave you my life just to fade away  
How many times should I stop and believe in myself  
I don't believe much in anything  
There's nothing for me here  
There's nothing for me here  
I gave you my life just to fade away
