

Tranquil

The Springfields

Go This decaying flesh is coming back to life
Reanimate me, give me a chance
And I'll be right here where the sun hits the sea
Watching these waves wash the pain away And it will radiate so brilliantly
That we can keep pushing on
And get on with life 'cause we deserve it Now I know
That the worst part is behind us now
Onward and upward We take flight on bruised and battered wings
We soar above our clouded thoughts
Never looking back
We can regain a sense of balance gone so long This decaying flesh is coming back to life
Reanimate me, give me a chance
To reason with the odds to pick myself back up
Regain a balance gone so long Now I know
That the worst part is behind us now
Now I know
That we will get on with life 'cause we deserve it
