

Move To the Ocean

Brick + Mortar

I fall into pieces

Do you
think about the life you live
same as you have to
Think about the things you did
things that they don't do
Together we can make a stand
You could take some too
cause I could use a helpin' hand
We'll move to the ocean
to feed off the daylight
Was hopin' that you'd understand
I got a darkness
darkness
But you don't gotta hold my hand
Do you got a darkness
darkness?
Together we could take a stand

First ten years didn't feel so hard
Something after that seemed to push me too far
Jumped at nineteen
I'm livin' out of my car
Wrote my first song and took back my heart
Sick and tired of feeling like I'm such a loser
Sick and tired of feeling it
always
always

I know
I know
I know
I know
I know
I know

We'll move to the ocean
to feed off the daylight
Was hopin' that you'd understand

I got a darkness
darkness
But you don't gotta hold my hand
Do you got a darkness
darkness?
Together we could take a stand

Steal what you can and keep what you got
Give it to the world and don't ever stop
Work all day with your feet on the floor
Harder
Harder
Harder
for a little bit more
It's possible

Do you
think about the life you live
same as you have to
Think about the things you did
things that they won't do
I think I'm gonna make a stand
You should make one too
Together we could take a stand
Together we could take a stand

(Brought to you by TKOdarkshadow)
