Gravity

Zlata Ognevich

Nothing comes from dreams but dreams
Still you believe in wonder
Something happens and it seems
Like a strike of thunderNothing comes from love but love
Why is it growing stronger?
I am falling from above
I will wait no longerIm like a butterfly
Spinning round a sword as if to dare
I should have stayed up high
(Its stronger than me) My gravity, my gravityHey sha
Ah yeah lele
See leleNothing comes from pride but pride
Mmh my way is clear
Dancing on the edge tonight
Now I feel no fearIm like a butterfly
Spinning round a sword as if to dare
I should have stayed up high
(Its stronger than me) My gravity, my gravityIm like a butterfly (My gravity)
Im like a butterfly
And I should have stayed up high
(Its stronger than me) My gravity, my gravityGravity!
