

Gravity

Zlata Ognevich

Nothing comes from dreams but dreams
Still you believe in wonder
Something happens and it seems
Like a strike of thunder
Nothing comes from love but love
Why is it growing stronger?
I am falling from above
I will wait no longer
Im like a butterfly
Spinning round a sword as if to dare
I should have stayed up high
(Its stronger than me) My gravity, my gravity
Hey sha
Ah yeah lele
See lele
Nothing comes from pride but pride
Mmh my way is clear
Dancing on the edge tonight
Now I feel no fear
Im like a butterfly
Spinning round a sword as if to dare
I should have stayed up high
(Its stronger than me) My gravity, my gravity
Im like a butterfly (My gravity)
Im like a butterfly
And I should have stayed up high
(Its stronger than me) My gravity, my gravity
Gravity!
