

# Swim

## Jack Å's Mannequin

You've gotta swim, swim for your life  
Swim for the music that saves you  
When you're not so sure you'll survive You gotta swim and swim when it hurts  
The whole world is watching  
You haven't come this far to fall off the earth The currents will pull you away from your love  
Just keep your head above I found a tidal wave begging to tear down the dawn  
Memories like bullets, they fired at me from a gun  
Crack in the armor, yeah I swim for brighter days despite the absence of sun  
Choking on salt water  
But I'm not giving in, I swim You gotta swim for nights that won't end  
Swim for your family as your lovers, your sisters  
And brothers, and friends Yeah, you gotta swim through wars without cause  
Swim for the lost politicians  
Who don't see their greed as a flaw The currents will pull us away from our love  
Just keep your head above I found a tidal wave begging to tear down the dawn  
Memories like bullets, they fired at me from a gun  
A crack in the armor, yeah I swim for brighter days despite of the absence of sun  
Choking on salt water  
I'm not giving in, well, I'm not giving in, I swim You gotta swim, swim in the dark  
There's no shame in drifting  
Feel the tide shifting and wait for the spark Yeah, you gotta swim, don't let yourself sink  
Just find the horizon  
I promise you, it's not as far as you think The currents will drag us away from our love  
Just keep your head above  
Just keep your head above, swim  
Just keep your head above, swim, swim  
Just keep your head above, swim
