It's Not Safe

Shortbus Soundtrack

All you want to do is something good
So get ready to be ridiculed and misunderstood
'Cause don't you know that you're a fucking freak in this world
In which everybody's willing to choose swine over pearls
And maybe everything is all for nothing
Still you'd better keep it to yourself
'Cause God knows it's not safe with anybody else
God knows it's not safe with anybody else
You can take your own advice and try again
But a thousand compromises don't add up to a win
And they'd be happy if you'd only cover your tracks
But the trail of crumbs they've left won't help you
Find your way back
So maybe everything is all for nothing
Still you'd better keep it to yourself
'Cause God knows it's not safe with anybody else
God knows it's not safe with anybody else
God knows it's not safe with anybody else
God knows it's not safe with anybody else
You can play along but you'll just end up wrong somehow
Won't you?
But you're the idiot who keeps believing in luck
When you just can't get it through your head that
No one else gives a fuck
So maybe everything is all for nothing
Still you'd better keep it to yourself
'Cause God knows it's not safe with anybody else
God knows it's not safe with anybody else
God knows it's not safe with anybody else
God knows it's not safe with anybody else
It's not safe with anybody else
God knows it's not safe with anybody else
