

# Like a Wind

## Bahamas

Be yourself I want no one else  
And if you're sad  
Just let it out By your side and still you hide  
Hide it all  
Just let it out Moved me like a wind  
And shook me when you blew in  
All winds someday change  
Before they blow in cold and strange Laugh it off, if you're feeling soft  
Then let me in  
And let it out
