World Looking In

Morcheeba

Angels
Smiling on my happiness
Danger

Danger
'Cause the scene is still a mess
We can all be blastDon't stop just yet
We've got the world looking in our window
Don't stop just yet
We've got the world looking in our windowSpacecraft
Spinning slowly out of sight

Peace man

Keep on chasing the wrong guy
We'll see eye to eyeDon't stop just yet
We've got the world looking in our window
Don't stop just yet

We've got the world looking in our windowWe've got the world looking in our window
We've got the world looking in our windowDon't stop just yet
We've got the world looking in our window
Don't stop just yet
We've got the world looking in our window
