Beautiful (Radio Edit) [feat. santerna]

Triangle Sun

The stars are looking down on you and me
Sweet breath on the wind your smile
All your worries are behind you dont need them anymore
We well enjoy the nights and lifeSo beautiful to be here is so beautiful
By the summer night and music of the sea
So beautiful to be here is so beautiful
When your friends are around the taste of life is realTime is running fast
Can we bring it back
Please tell me if it is a dream or not
The music of this moment
Will always live inside
Of my heart and soulSo beautiful to be here is so beautiful
By the summer night and music of the sea
So beautiful to be here is so beautiful
When your friends are around the taste of life is real
