

# Anyday

## Derek and the Dominos

You were talking and I thought I heard you say  
"Please leave me alone  
Nothing in this world can make me stay  
I'd rather go back, I'd rather go back home"  
But if you believed in me like I believe in you  
We could have a love so true, we would go on endlessly  
And I know anyday, anyday, I will see you smile  
Any way, any way, only for a little while  
Well someday baby, I know you're gonna need me  
When this old world has got you down  
I'll be right here, so woman call me  
And I'll never ever let you downAnd I know anyday, anyday, I will see you smile  
Any way, any way, only for a little while  
To break the glass and twist the knife into yourself  
You've got to be a fool to understand  
To bring your woman back home after she's left you for another  
You've got to be a, you've got to be a manAnyday, anyday, I will see you, I will see you smile  
Any way, any way, only for a little while  
Anyday, anyday, I will see you smile  
Any way, any way, just for a little, just for a little while
