Walking On Water

Avant

Thought that I'd figured out a woman
But what I learned, it don't amount to nothing
Did everything I knew by the book
But it just didn't work
I figured happy ever after wasn't
Wasn't in the plans for me
Had just about given up on love
'Til you came around and showed me exactly what it was
I finally found someone
A girl I can love forever
Never thought it would happen for me
Feels like I'm walking on water, walking on water
When I'm with you
Impossible is easy to do
Never thought it would happen for me
With you I'm walking on water, walking on water
Nothing seemed to matter much without you
My life has changed, another song about you
And even if I try to go back
No, it just wouldn't work, oh
Waking up beside you, am I dreaming?
It feels so unreal to me
Just like the heavens opened up

It took a while but I've got my angel from above
Finally found someone
A girl I can love forever
Never thought it would happen for me
Feels like I'm walking on water, walking on water
When I'm with you
Impossible is easy to do
Never thought it would happen for me
With you I'm walking on water, walking on water
Never knew that true love could be
What I always heard of
The closet thing to perfection
You gave me a reason to believe
That I can do anything 'cause
I finally found someone, yes

A girl I can lover forever
Never thought it could happen to me
Feels like I'm walking on water
When I'm with you, yeah
It's easy to do
Now I believe 'cause I'm walking on water
You got me walking
