

# Blood Is Thicker Than Water

## Pitbull

I know y'all listen to my music  
But what I'ma do now is I'm tryin' and describe my life to y'all  
Sometimes I fell like I'm loosing it  
My life is upside down  
A gift and a curse that's my life now  
There is no looking or turning back  
I used to watch, watch turn to, turn to  
That's what made me turn to rap  
I feel like Keanu Reeves in the movie 'Devils Advocate'  
Confused but blessed with extravagance  
I thank God for all the opportunities  
Given an opportunity, dem boys would put two in me  
We live in the land of the free, hustlers and thieves  
I made money, now I got uncle Sam hustling me  
For a quarter of what I make  
Hand a quarter sentence to a fake and watch them turn state  
Blood is thicker than water, at least they say it is  
Until the Fed's step in that's just the way it is  
Most of these fools are characters  
Men with no character, welcome to America  
Where we fight for freedom  
If it ain't about oil than we don't need them, ain't that the truth?  
Pitbull, I'm just tell y'all the way I fell  
Thank God that God made me to keep it real  
Blood is thicker than water, at least they say it is  
Till the Fed's step in that's just the way it is  
Blood is thicker than water, at least they say it is  
Till that fame step in that's just the way it is  
Blood is thicker than water, at least they say it is  
Till the Fed's step in that's just the way it is  
Blood is thicker than water, at least they say it is  
Till that money step in that's just the way it is  
Yo, after the turf war, the smoke clears  
All these years around these busta  
I'm convinced there ain't no hope here  
In the past four years of my lifetime  
I witness leaders sacrifice freedom just to get this pipeline  
Guess, I'm chosen at the right time, mama stress  
Facing the table and she's snorting up white lines

Blood is thicker than water in a few cases  
Your daughter can have touched for the money that in dem suit case

Tighten my shoelaces, the fugitive's running  
In fear of a criminal past 'cause dem folks is coming  
I've been wrongfully judged, being from this environment  
The city gangs planning retirement, I'm a dead nigga  
Voicing my set 'cause I spray quick  
Took some of the same steps through little Haiti as these main \*\*\*

Hitman, Big Dogg and SheHound  
Y'all predict it back then, \*\*\* I see it know  
Blood is thicker than water, at least they say it is  
Till dem Fed's step in that's just the way it is  
Blood is thicker than water, at least they say it is  
Till that fame step in that's just the way it is  
Blood is thicker than water, at least they say it is  
Till dem Fed's step in that's just the way it is  
Blood is thicker than water, at least they say it is  
Till that money step in that's just the way it is

I escape poverty, I don't own jewelry  
Mother\*\*\* I own property  
You can send dem Tsunamis that hit Indonesia  
B-b-but ain't no mother, mother thing stopping me  
Like good, good I'm a good swimmer  
God knows I done lost but \*\*\*dam I'm a good winner  
It feels great to make something out of nothing, yeah  
I'm humble but I tell y'all to \*\*\* a Chico's buttons  
And watch how them thing get to dumping  
Real-estate New York game now you saying something

I only talk about what I know about  
Illegal turn legal this year that's what I'm all about  
I'm from the South and I ain't gonna lie  
Fist time I preach ye, till God struck me with pride  
I was confused now I'm like let's ride

305 till I die, 305 till I die  
Blood is thicker than water, at least they say it is  
Till dem Fed's step in that's just the way it is  
Blood is thicker than water, at least they say it is  
Till that fame step in that's just the way it is  
Blood is thicker than water, at least they say it is  
Till dem Fed's step in that's just the way it is  
Blood is thicker than water, at least they say it is  
Till that money step in that's just the way it is
