

# Goodie Bag

Dursta'scher

Put some fire on that ass end of dat weed  
'Cause in da swat's red hots don't drip or bleed  
Put some fire on that ass end of dat weed  
'Cause in da swat's red hots don't drip or bleed  
Cuz' you know me givin' me left hand dap  
P funk be ridin' shot gun escort your window broke out son  
A cool breeze got my lips chap mornin' slap some  
Soul in my bread basket gap contain X marks the spot  
Twain O.C. the cut layin'  
A stew of empty gas in my tank  
A buck thirty lookin' ugly think but it ain't gonna stop no show  
Ol' burd puttin' a buzz in you ear  
It's gonna snow or maybe perhaps sleet  
Rap up the beat outside barely made it to your wake  
Lookin' like Mr. Fisher, dickie down no suit, no tie  
Niggaz ain't gonna be able to just get by no mo'  
You leavin' the hotel 254  
Today was good to me  
I went to the Goodwill with the ten dollar bill  
Got that London Fog out tha back paid tha man  
Me and Khujo and T-Boo, three jack lumbers on tha loose  
Cut your ass Lo like Cee, be under tha water  
Half these figures around me be hollering New  
Now what the fuck has this politician did for you  
Complain, complain but Mr. Clampett ain't gon' change  
Just ribb your ass up just to gut your pockets out  
I heard Bill put two G's up for some folks  
That they found in they house beat up  
And I don't discuss that color scheme that they fall on  
'Cuz tha scheme that they fall on don't match wit my tone  
See, I wonder will I walk tha streets in 1995  
And not have to make bond from 254  
Uh, will somebody please turn the lights on 166  
I can't see where tha fuck I'm going  
I can't do shit but get mad  
I can't keep get Billie and his uncle out my fuckin' Goodie Bag  
Without your shank you can't thank  
Without your niggas you up the creek  
Stank with a ass fool of ore

Takin' what I say for what it's worth  
It don't matter 'cuz how I feel might be triggered  
From thoughts I had in the past  
Now I struggle to reach the sky, why try so hard  
If all I'ma get is spit on  
'Cause life at the bottom ain't hittin' on shit  
But some of these folks is gettin' rich  
I know about mines, unwind, can't take at times going through  
The same drama that got me here in this state of mind  
Red-hot in the summer time  
First of all, I stand a little more than five feet tall

But we can still brawl nigga, I ain't scared at all  
I guess you niggas don't know or can't see  
That it ain't even wise steppin' to me incorrectly  
But yet still when nigga's feel they can deal  
I will split yo' ass up for real  
'Cause we the maniacs with the chunky Goodie sac's  
So I don't carry an ax, but I still swing low with the lumber jax trax  
Are being made by Organo-i-z-e  
Why we coolin' in the shade ain't gettin' paid  
For chillin', illin' willin' to do what I got to do  
To come through your speaker  
Cee-Lo, he will never come weaker  
Uniquer than a lot of emcees out today  
Because I'm more than careful about what I say  
When I pick up a microphone it's on  
Them better leave me alone, I'm in my zone  
Prone to snap if you offer me a chance  
Like it when them chunky hoes can dance  
I'll enhance the microphone when it's in my grip, I do not slip  
I can't forget my nigga's Jo, T-Mo and Gipp  
Ha, ha, ha, well, Great Scott, is he a thief?  
It seems like he has a mouth fulla gold teeth  
I smile because your eyes can't take the glare  
But Cee-Lo, him don't care, I cut off all my hair  
And everybody stop and stare when we come in the place  
And I can get on the mic wit' no time to waste  
Get right up in yo' face, kick the flavor you taste  
And when I'm on the microphone it's a damn disgrace  
How you don't comprehend what I'm saying to you  
And I'm the C, the double E from the Goodie Mo Crew  
I'm coming through, I'm comin' true, ooh I can't even stop  
It's Cee-Lo B, I'm down wit that nigga pop, pop, pop  
And my nigga Mike L and Bert P and my nigga Pretty Ken

You know he down wit' me  
We from Atlanta, G-A, that is where we stay  
I'm diggin' all in the Goodie Bag each 'n ever day  
Ooh, shit

Put some fire on that ass, end of dat weed  
'Cause in da swat's red hots don't drip or bleed  
Put some fire on that ass, end of dat weed  
'Cause in da swat's red hots don't drip or bleed  
Put some fire on that ass, end of dat weed  
'Cause in da swat's red hots don't drip or bleed  
Put some fire on that ass, end of dat weed  
'Cause in da swat's red hots don't drip or bleed  
Put some fire on that ass end of dat weed  
'Cause in da swat's red hots don't drip or bleed  
Put some fire on that ass end of dat weed  
'Cause in da swat's red hots don't drip or bleed
