Salvation or Annihilation

Antischism

Unless we act right now there will be no tomorrow
This is only one example of government inflicted sorrow
Stand up and be counted because every voice is crucial
We have to stop the arms race, our governments refuse toWe have to act right now it's a matter of life or death
We must break down their wall if we want to breathe another breath
Our future is at stake if we let them keep control
We can build a human ladder and get out of their fucking holeSalvation or annihilation, the choice is up to you and me
Genocide is now a threat, and soon to be a reality
It takes but two sticks to create a spark, imagine the spark of millions
A million hands joined in love to save us from the killingSalvation or annihilation the choice is up to me and you
We face the threat of genocide and our leaders won't pull us through
Disarmament is a giant step for love and peace and anarchy
The choice is up to you now, we know where that path leads
