

Like They Used To

[Crossley Hunter](#)

Well we're older but we've lost the wisdom
Oh we're smarter but we've lost our interest
We've been colder, but hell that ain't saying much
If shit gets darker let's tie a noose and cut our losses
Is anybody gonna go on like they used to?
Well we're older
but we took some wrong turns
And we're smaller than those roots we're growing on
I miss the days we'd open doors to open doors and find a place that's ours
and build it in our hearts
Is anybody gonna go on like they used to know?
Tear me down and rake me in 'cause
I'm holding on for something more than
this
I can see the light
I believe in life
We built our home on hollow ground
I can see the light
I believe in life
